Sonoran Ranch House & Lounge

Whisk(e)y

We have an intense devotion to making the perfect drink, of which perfect ice is a critical component. That is why we use one singular large piece of ice known as “The Rock.” When a spirit is slightly chilled and a little diluted, the impact of the alcohol is reduced and its aromatics and nuances really open up. “The Rock” reduces the contact surface area between the whisk(e)y and the ice, thus chilling slightly without over-diluting. This is a result of the large piece of ice melting at a slower pace. We put great attention and care into the preparation of “The Rock,” which is why we only use filtered and twice distilled water to avoid imparting any unwanted flavors or aromas. Try your next whisk(e)y on The Rock and experience the difference.
